[illegible][illegible][illegible]

This technical drawing illustrates a longitudinal section of a drainage system. On the left, a cross-section of a building foundation is shown with a height dimension of 100. Below it, a series of manholes are indicated by circular symbols with numbers 1 through 7. The main horizontal line represents the ground level or a specific elevation. Below this, several colored lines represent different types of pipes or conduits, labeled with codes like 'OCZ_00000' and 'OCZ_00001'. Dimensions along the bottom indicate distances between manholes or sections, ranging from 130 to 134. Various pipe diameters are specified, including Ø200, Ø150, and Ø125. The drawing uses standard architectural conventions for drainage systems.

Technical drawing of a road cross-section. The drawing shows a road with a width of 10m and a cross-slope of 2%. The road is divided into a central lane and two shoulders. The central lane is 10m wide, and the shoulders are 2m wide each. The drawing includes a centerline, edge lines, and various dimensions. Key features include a 10m wide road, a 2% cross-slope, and a 10m wide shoulder. The drawing is labeled with '10m' and '2%'.
